

Ultra WATERPROOFING AGENT

Provide Long-Term Waterproofing & Durability Benefits to Concrete!

CretePro® Waterproofing Agent is a modified silicate solution that provides long-term waterproofing and durability benefits to concrete. It penetrates into concrete and reacts with free calcium and water to form a calcium silicate gel complex in cracks, pores and capillaries. When used in combination with *CretePro Waterproofing Activator* and *CretePro Ultra Crack & Void Activator* a 10-year waterproofing system may be achieved.

Integrate with our complete line of **ACR Surface Preparation Products** to achieve the maximum positive result from our CretePro products!

▼ **CretePro® Ultra Waterproofing Agent**

- Permanently seals cracks up to 1/64" (.4 mm).
- Reseals future hairline cracking
- 100% trafficable after the first watering, with minimal risk of damage during construction

For Use On:

- Rooftops, Podium & Parking Decks
- Wharf Decks and Marine Structures
- Airport Runways, Taxiways and Aprons
- Precast Elements and Panels
- Tiled Areas

***Register your CretePro project and receive a
20-Year Limited Material Warranty.***
